Title Index

A

Advanced Usability Topics 280
Analysis of Virtual Classroom Environments: Survey of Classroom Dynamics in RSVP Courses 30
Applying Research to Practice: Helping Users Find What They Need 230
Assessing Publications Process-Maturity: The Experiences of Two Organizations at Different Levels of Process Maturity 135
Assessing the Value Added by In-House Technical Communication Courses 275
Avoiding the Pitfalls of Independent Contracting . . 178

B

Balancing the Elements in Job Aid Design 462
A Beginner's Guide to HTML 342
Benchmarking the Document Management Process 96
Better Products Through Collaboration: Technical Communicators and Usability Professionals Working Together 247
Building a Dynamic Web Site: Separating Data from Display 349
Building Documentation Into the Interface: A Cognitive Theory 295
Building Hypermedia Information Systems That Work 397
Building Your Home on the World Wide Web: Researching, Designing and Maintaining a Web Page 158

C

Café, thé ou lait: How Shall We Train Technical Communicators to Translate? 36
Caught in the Web: An Intranet Adventure 361
The Challenges of Technical Illustration for Customer Documentation in the High Tech Environment . 326
Changing the Way the Profession Communicates: A Workshop for Prospective Journal Authors . 217
College Curriculum and the Assessment of Recent Graduates 74
A Comparative Analysis of Heuristic and Usability Evaluation Methods 307
Comparing Apples to Apples: An Interviewing Process and Strategy 101
Computer-Based Training That Really Communicates 150
CPI Navigator: Building an Electronic Library on CD-ROM 355
Create Your Consultant Image 103
Creating a Corporate Electronic Information Delivery Solution 371
Crossing Disciplinary Borders 45
A Curriculum for a Corporate Technical Writing Department: Providing Cost-Effective, Ongoing, Quality Training 88
Customer Partnering: Another Way to Gather User Data 286

D

Delivering Training and Support Using Windows Help 369
Demanding of Our Students, Demanding of Ourselves 76
Designing an Online Help System Before the Interface is Ready 475
Designing and Testing Customer Satisfaction Surveys on WWW Sites 298
Designing Information for the 21st Century 452
Determining the Right Training and Documentation Solution 84
Developing a Company Style Guide 469
Developing a Successful, Low Maintenance Internship Program 62
Developing an Information Strategy 329
Developing Interface Standards: Compliance From a Corporate Perspective . . . 136
Distinguishing Characteristics of Medical Writing . . 429
Document Analysis, Modelling, and Markup 367
Document Design: A Brief Primer 235

E

Editing and Revising With Flair . . . . . .
Editing Mathematics 427
Editing Nonnative Writers and Speakers of American English: Issues and Responsibilities 404
Education and Training Stem Overview 3
Effective Project Planning 131
Estimating Scope and Schedule for a Help Project 108

F

Fanning the Creative Spark 173
Faster Factfinding With Digital Libraries? 291
Find It Quickly: Creating Effective Indexes 413
Finding the Best Mix of Paper and Online Documentation: A Case Study 417
Forging Effective Partnerships with Clients 130
From Information Worker to Knowledge Worker: Emerging Technologies, Trends, and Skills Sets 192
From Technical Writer to Book Author 209

G

Gathering Input for the Best Possible Prototype . . 239
Going Hollywood: Trends in the World of Work . . . 222
Going Online: Selecting the Right Tool 370
Golden Hits of STC Conferences . . . A Potpourri of Titillating Technical Communiction Tidbits 177

H

Hazard Communication 101 for Technical Writers . 446
Help! Six Fixes to Improve Usability 306
"Here, Just Stick this Document on the Web": Planning Usable Web Documents 414
How In-Process Measures Can Help You Manage Quality 195
How to Become a Value-Add Technical Communicator to Scientists, Engineers, and Technical Staff . . 466
How to Consume Research Effectively: You Are What You Eat 245
How to Develop and Implement a Usable Training Database 80
How to Make Yourself More Marketable in a Small Company 185
HTML Help: Transition Without Fear 398
To HTML or Not: What Are the Questions 387
HTML: Making the Move 343
Human Factors for Web Page Design 322

I

Identifying Obstacles for New Writers in Industry . . 44
Implementing SGML in the Mainstream: The First Steps 494
Improving Information Quality in Your Web Space: A Take Charge Approach 338
Incorporating Human-Computer Interface (HCI) Technology Into the Technical Writer's Role . . . 33
Increasing Chapter Membership Through Public Relations 216
Indexing Workshop 430
Information Delivery: Single Source Documentation for Multiple Delivery Mechanisms 375
INTECOM Present and Future 212
Integrating End-User Support into New Software . 360
Integrating New Technology Into Technical Communication Curricula 46
Interact to Produce Better Technical Communicators: Academia and Industry 57
Interacting with Engineering and Industry, Using Instructional Technologies in Technical Communication Education 78
Is Online "Inline" With Your Users' Needs? 289

J

The Joy of Indexing: How to Make a Good Document Better 490

K

The Key for Effective Documentation: Answer the User's Real Question 248

L

Learn Public Relations Skills Through STC's Chapter Competition 214
Learning from Our Students: Insights from Internships 66
Learning From Your Past 125
Lessons from Environmental Communication 73
Lessons Learned from Usability Testing Web Pages 293
Lessons Learned: Developing and Testing a Web Site 396
Let the User Write the Documentation 27
Lies, Damned Lies, and Web Statistics 352
Lost in Translation? 110
Low-Fidelity Prototyping for Technical Communicators 256
